Jacqueline M. Brettner
Polk County Assistant Zoning Administrator
100 Polk Co. Plaza
Balsam Lake, Wisconsin 54810

SUBJECT: Big and Little Butternut Lake Regional Flood Elevations (RFEs)
T36N-R17W-SEC 29

Dear Jacqueline:

RFEs have been determined for Big and Little Butternut Lakes based on the survey information supplied. The RFEs are tied to B.M. 1166-A at 1213.03 ft. NGVD-29.

The RFE for Big Butternut Lake is 1215.4 feet NGVD-29.

The RFE for Little Butternut Lake is 1210.3 feet NGVD-29.

The cooperation shown between the Lake Association, Polk County Zoning and Polk County Land Surveying made the determination of these RFEs possible.

If you have any questions about these determinations, please contact me.

Sincerely:
Frank Dallam
