Solar Installation Tour Invitation

To: All Polk County Commissioners, Public Officials, and Press

From: Polk County Renewable Energy Committee (REC)

The REC is pleased to invite you to attend a tour on Thursday, October 15th from 1:00- 2:30 p.m. in Osceola. We have arranged to meet at the Crystal Ball Dairy Farm to see their large working 560 solar panel operation followed by a visit to Viebrock Construction's 36 panel solar installation. We will finish up at Common Harvest Community Farm to view their solar panel system, also 36 panels, and meet the owners for questions and answers about their operation.

Crystal Ball Dairy is located at 527 Hwy 35 about 2 miles south of County Road M in Osceola. Their phone # is 715-294-4090. The drive from the Government Center takes about 30 minutes. We will begin the tour at 1:00 p.m.

Please RSVP by email if you cannot attend so we will have an idea of how many people will be touring the three facilities. We feel this is an excellent opportunity to find out about costs of solar panel systems in various sizes and configurations, and to speak with the principals of the respective businesses.

Plan on an informative afternoon and organize your carpools to save on expense for the tour.

We are looking forward to seeing you on October 15th in Osceola.

Timm Johnson, Chair

A quorum of the County Board of Supervisors or any Committee of the County Board of Supervisors may be present on this tour.

This meeting is open to the public according to Wisconsin State Statute 19.83. Persons with disabilities wishing to attend and/or participate are asked to notify the County Clerk's office (715-485-9226) at least 24 hours in advance of the scheduled meeting time so all reasonable accommodations can be made. Requests are confidential
