TOWN OF LORAIN
334 15th St, Frederic, WI 54837
Phone (Susan E. Hughes, Clerk) 715-653-2629

January 14, 2016

CONSERVATION, DEVELOPMENT, RECREATION & EDUCATION COMMITTEE
100 Polk Plaza
Balsam Lake, WI 54810

Dear CDRE Committee Members,

We, the Lorain Town Board are writing to request Polk County to waive or reduce all fees and any other ordinance restrictions for Starwire Enterprises of Siren, WI. We would also like to see it feasible for Starwire to retain the tower already erected in Lewis and also to build a second tower near Clam Falls which would provide service to our township.

We are submitting this request for our residents and the potential access to faster and more reliable internet service, and in some cases, internet services being available for the first time. We have people in our community who are involved in on-line learning and on-line college programs, people who have telecommuting opportunities with employers, as well as people with health concerns who require health/safety devices and/or telemedicine communication tools that all require reliable internet service with efficient yet standard high speed internet levels and these opportunities are not all currently being met.

A prominent service provider in our area is currently unable to offer service to any new members and has been unable to offer this for some time now as they have no room for expansion. Other service providers available in our area are satellite service providers and they are not currently able to provide reliable service with standard high-speed performance as needed either. Our township is in need of these services today and as technology advances in all aspects of our lives and the need will only be greater with time and Starwire Enterprises would be able to meet these needs today.

We greatly appreciate you hearing our concerns regarding the need for internet service in our area and are thankful for your consideration of this request and we are graciously awaiting your decision.

Respectfully Submitted,

Daniel J. Beecroft
